

THE NORTHERN TRIBUNE

AN INDEPENDENT WEEKLY NEWSPAPER

Published every Thursday at Grande Prairie, Alberta. The Tribune's aim is to thoroughly cover the local news field with fairness to all sections and parties; also to aid in the development of the Peace River Country and help make known this "Northern Empire" many advantages as a home-land. All news is printed without intentional distortion. The paper's opinions are expressed only in its editorial columns.

Letters for publication are welcomed. A pen name may be used, though correspondence must also sign their proper names, not necessarily for publication, but as evidence of good faith. In publishing a communication, the Tribune does not imply agreement with any opinions contained therein.

Legal and other advertising rates furnished on application.

Subscription Rates: One Year, in British Empire, \$1.00; Half Year, in British Empire, .75; One Year, in United States, \$2.00.

THURSDAY, AUGUST 6, 1936

IN THE TRIBUNE'S MAIL BOX

To the Editor of The Tribune.

In the Edmonton Journal of July 31 there was published an interview with a Mr. Tilly of London, England, who apparently recently paid a visit to this district.

A man of wide travel, no doubt, Mr. Tilly does not wish to convey to the public at large that he knows this district or the people who live here, only stopped at the larger towns and interviewed a few people.

He was apparently informed that the movement for secession from the province of Alberta was to impress Edmonton and Vancouver with the fact that they were bound together and to have a railway outlet to the coast, too, and I'd say they need it.

The last part of this remark, "I'd say they need it," impressed me. It is Tilly in his casual view of Canada, with his eyes open, could see the necessity of a coast outlet. It must be apparent, of course, to all travellers as a passenger, but not with shipping grain or stock, and I don't suppose he made any inquiry into freight rates. But he is absolutely right when he says we need better transportation facilities—and what is more, we will not wait until we get them.

I wish to add further, for the benefit of Mr. Tilly, that the people of this large territory will not be satisfied with better transportation only, they will have the opportunity to develop and this means lower taxation and a medium of exchange, and so on.

We know that what we are opposed by the press of the rest of the province, as they seem to be, is to hold as a reserve asset, regardless of how we live or what we do. But we must realize and must come to that result soon. THAT WE HAVE REACHED THE LIMIT OF OUR ENDURANCE.

I beg to thank you, Mr. Editor, for your valuable column.

Yours very truly,
M. W. RADAR
Grande Prairie, Alberta
August 5, 1936.

BELIEVE IT OR NOT

Interest
Legal protection of interest on money is a rotten ana-chronism. No valid excuse can be made for its necessity in the conduct of human affairs. It is anti-progressive and extremely so.

Interest and its abuses were one of the main causes of the downfall of the Roman Empire. History often repeats itself—ignorantly or not—and it can be easily perceived that interest is just the main factor causing the impending catastrophe of the actual capitalist regime.

Adam Smith, the father of the free market, has said that the "reprobations of millions upon millions of the victims of interest" is "a permanent and unchangeable evil." It remains unchangeable. All governments suppress how before its existence.

It is the idol, the fetish of our monetary system, based on perpetual debt, that must be paid and never paid off. Without interest the existence of these debts would almost be annihilated. The fountain of wealth, which constantly vitrifies them, in order to make them enjoy perpetuity. It matters not if it is named interest, usury, dividend, annuity, it is the most pernicious and sacred quintessence of the present economic regime.

For the protection and guarantee of its property, and by taking ingenious, have been found assurance, mortgaging, depreciation, and so on, and so on. Everywhere, at all times, it consequently requires the first fruits of production and the first fruits of labour, and so on, and so on.

It is the idol, the fetish of our monetary system, based on perpetual debt, that must be paid and never paid off. Without interest the existence of these debts would almost be annihilated. Committees, Etc.

(Continued from Page One)

P. P. MacDonald of Rio Grande, in answer to a question put by Mr. Milne, replied that as he saw it Heaver Lodge was the best point to build the sub-hospital.

Mrs. E. L. Langston of Two Rivers stressed the heavy difficulties confronting the people under the present scheme.

Mr. Flint said that in the summer time the people of Heaver Lodge could get to the hospital. What he was especially interested in was the welfare of the people further on.

Mr. N. Harris of Two Rivers observed that it was generally understood that the first thing necessary was to have a good central hospital.

Mr. K. Blaney of Heaver Lodge, acting secretary of the West End Health Association, made it quite clear that the committee did not want to separate from the present hospital.

Mr. N. Harris of Two Rivers observed that it was generally understood that the first thing necessary was to have a good central hospital.

Mr. K. Blaney of Heaver Lodge, acting secretary of the West End Health Association, made it quite clear that the committee did not want to separate from the present hospital.

Keen Interest...

(Continued from Page One)

ing barley which can be grown here and later be given a fair trial, as they may prove to be more profitable than low grade wheat. He stressed the importance of pure varieties being grown and the starting improvement in germination when grain is treated with mercuric dust rather than formalin. He particularly emphasized the use of a dust which can be applied by proper treatment.

Prof. F. W. Mackenzie of the animal husbandry branch, discussed the market conditions affecting the horse industry and showed in the demonstration the type of animal most suitable for export outside. In addition a brief outline of the horse industry of the province was given in the southern part of the province where the horse industry is more important. Many horses were offered and both the cattle and horse men were well pleased with the discussion of the horse industry.

G. S. Black, District Agricultural Extension Officer, discussed the grain situation and showed in the demonstration the type of animal most suitable for export outside. In addition a brief outline of the horse industry of the province was given in the southern part of the province where the horse industry is more important. Many horses were offered and both the cattle and horse men were well pleased with the discussion of the horse industry.

WHERE THEIR CARAVAN HAS RESTED:

Mr. Edson (to Premier Hume): "You did hear a gentle voice on the desert air, did you, Hume?"

(The British Ambassador in Berlin, having more than once sought, without result, a reply from the German government to the British questionnaire, will not receive his request.) Never the World.

FIRST IMPRESSIONS OF PEACE RIVER BLOCK

A. Watt Tilly of London, England, former editor of the Evening Standard, and so on—and also a poet, at present special correspondent of the Glasgow Herald, was in the Peace River Block recently and while he was there he gave his first impressions as follows:

"The first time I ever heard of the Peace River Block—as distinct from the Peace River valley and the Peace River Block—was in the early days of school days and geography lessons—was a few years ago, when some farmers in England, Canada, and the United States, were talking of the incredible number of bushels required to have been raised in what was called the Peace River Block."

"The first time I ever heard of the Peace River Block—as distinct from the Peace River valley and the Peace River Block—was in the early days of school days and geography lessons—was a few years ago, when some farmers in England, Canada, and the United States, were talking of the incredible number of bushels required to have been raised in what was called the Peace River Block."

Timely Hints From the Beaverlodge Sub-Station

By W. D. Albright
"IT IS A PLEASURE AS WELL AS A DUTY TO SERVE"

The summer whirl of activity is on at the Sub-Station, Pelly, visitors and field days gather with harvest in the early offing and the work always is as profitable as it is busy.

This is written in the midst of field days staged by the Provincial Department of Agriculture and it is the most important of hints for the day. It is a schedule it will probably be due in the early offing and the work always is as profitable as it is busy.

A power switch on two cut around a grain field not only tends to keep crop land and fence bottom clean but has much the same effect on appearance as a shave and haircut have on a man. On recent trips many examples of both have been noticed.

The Cereal Field Day at the Beaverlodge Sub-Station on August 15 is to be given in the presence of Dr. L. H. Newman, Dominion Cerealist, and Prof. P. A. Baving, the popular agriculturalist of the University of British Columbia. A very profitable event both for the farmer and the student.

I understand buckwheat can be sown rather late in the year and ripen. Does buckwheat compare with barley as a feed for horses? And would it make a rapid growth during hot weather. It has some value in suppressing weeds, and next to the legumes, is counted a good crop for plowing under. It was grown experimentally at Beaverlodge from 1923 to 1928, inclusive, then discontinued because its seed was darkened by the aphid. It has usually ripened a little over a hundred days and once matured in 95. The highest yield obtained was 45 bushels per acre in 1928.

For four years, 1925 to 1928, inclusive, a comparison with Perennial Ryegrass is available thus:

Days to Harvest	Yield of Grain	Per Acre
112 to 118	12 to 13	12 to 13
Buckwheat, Common	10 to 12	10 to 12

Flax weighs 35 pounds per bushel, buckwheat, 28. In the 1928 edition of "Feeds and Feeding":

"The grain of the buckwheat plant has a fat feeding value. Its nutritive value is somewhat lower than that of the leading cereals. The black scooped hulls have little value, but a portion just beneath the hull forming the middlings is rich in protein and other extract and has a high feeding value. Buckwheat bran and middlings are generally used as feed for hogs, having the reputation of producing a large flow of milk, though charged with oil. It is also used in butter and pork of poor quality."

The authors question whether these facts would be of much value in the proportion of buckwheat to wheat or wheat middlings for fattening pigs. Buckwheat tends to produce poor quality bacon when it is fed as a large part of the ration, and it may also cause skin eruptions on the pigs. Caution, therefore, is advised in feeding buckwheat. It is a nutritious impurity in a wheat crop.

Russian Poplars Dying Back
Enclosed specimen is of Russian poplar that seems to be dying back. It is a case of insect injury or winter-killing. T.W. Halcutt, Alta.

Ans: Dr. G. H. Sanford, Plant Pathologist, Dominion Laboratory, Plant Pathology, Edmonton, reports that the dying back is a case of injury associated with the winter and possibly early spring periods. Though the Russian poplar has apparently entered well on the path to extinction, it is in the Edmonton district, temperatures were more severe at some points than at others, and there may be additional factors accounting for varying results. The specimens and discussion were received in the early summer.

Black Leg in Potatoes
Potato plants seem to turn yellow and die and after pulling them up I find the roots rotten. In some cases it is just one stalk only. The potatoes underneath appear to be sound. Although I have found some rotting. Would you advise pulling them all out and use the potatoes for feed? I thought it might possibly be in the ground, but this year there have been no potatoes in this place for five years. The variety is Earl Rose. E.J.T. Dugan, Cope, B.C.

Ans: The conditions described are not unusual. The potatoes are suffering from black leg, a disease caused by a bacterium. The best remedy is to pull up the plants and burn them. Do not use the potatoes for feed.

Potato plants seem to turn yellow and die and after pulling them up I find the roots rotten. In some cases it is just one stalk only. The potatoes underneath appear to be sound. Although I have found some rotting. Would you advise pulling them all out and use the potatoes for feed? I thought it might possibly be in the ground, but this year there have been no potatoes in this place for five years. The variety is Earl Rose. E.J.T. Dugan, Cope, B.C.

Ans: The conditions described are not unusual. The potatoes are suffering from black leg, a disease caused by a bacterium. The best remedy is to pull up the plants and burn them. Do not use the potatoes for feed.

Black Leg in Potatoes

most black leg quite definitely. This is a disease which is carried over in the seed. Treatment with hot formaldehyde or with corrosive sublimate, and especially with the acidulated corrosive sublimate, does a good deal to check it. Notably, diseased plants observed at this season had better be pulled and destroyed.

This disease is not the late blight form of potato rot generally feared in the potato growing districts, and affected potatoes may be eaten, although there is quite a chance of some proportion of them spoiling during storage.

Dr. A. W. Henry of the University of Alberta, says this blight may be checked or reduced by treatment of the crop before storage with the ordinary cold formaldehyde treatment, which, for a season or so, will not harm the tubers for eating. We have never tried it ourselves.

It is unlikely that all the patch will be ruined, but it may be advisable to change the seed or at any rate to treat thoroughly next spring after sowing carefully now.

Ditching Fields
Have you had any experience of open ditches in your cultivated fields? A tenant wants permission to make some open ditches in some of the water and flood water in spring. The cause of the present surface moisture is the recent heavy rains.

We have had. It usually dries up once the spring rush is gone. As well as some ditches, water one which, in my opinion, would commence to cut through right away. A tremendous volume of water flows down there in spring and there is quite a fall in the land just at that point. In fact there is already a small hole about 18 inches deep worked out. M.J.W. Nampa, Alta.

Ans: Our experience is that open ditches are very dangerous. Once a ditch is cut below the grass roots the soil erodes very rapidly, leaving deep gashes which ruin the fields. We have taken care of the work in a few places by grubbing out broad shallow ditches which we could seed down, leaving the rest to nature.

Any more than that is dangerous. The broad, shallow ditches, if provided, must be cut across the water is allowed to cut across them, otherwise trouble will result.

DEBOLT ITEMS
DEBOLT, July 29. Dr. Thomas Powell, of Calgary, superintendent of home missions, held services at the United Church, here last Sunday.

Dr. Powell and Mr. C. G. McKim were dinner guests at the G. G. Kline home.

Mr. and Mrs. Percy McCall are the proud parents of a baby boy, born at the Municipal Hospital on July 25.

A crew of men are filling in the approaches at the new road bridge at Debolt.

Miss Dorothy Debolt has gone to the hospital at Grande Prairie to have her tonsils removed.

Mrs. L. Morrison and son are visiting in Grande Prairie a few days this week.

Mr. and Mrs. J. A. Smith and sons, and Mr. Percy McCall were visitors in Grande Prairie last Tuesday.

Mr. and Mrs. Rudolph Knudsen and sons, Mrs. L. Morrison and son, Mr. and Mrs. G. G. McKim, and Mr. and Mrs. G. G. McKim, were supper guests at the E. Schreiner home on last Sunday evening.

Mr. and Mrs. H. B. Russell and Mr. Tom Dickson are planning on making a motor trip to Edmonton this week.

Mr. and Mrs. E. McKinley were Sunday visitors at the Geo. Debolt home on last Sunday.

FAIR WILL BE HELD AUGUST 28
The annual agricultural fair will be held at the club hall on August 28. Prizes will be given for the most points in each class.

Mr. and Mrs. T. G. Moore, Harry Burgess, H. E. Debolt and children were visitors at the Chas. Moore home on Sunday afternoon.

Mr. and Mrs. Clarke and family, from the Stettin, were shopping at Debolt on Monday.

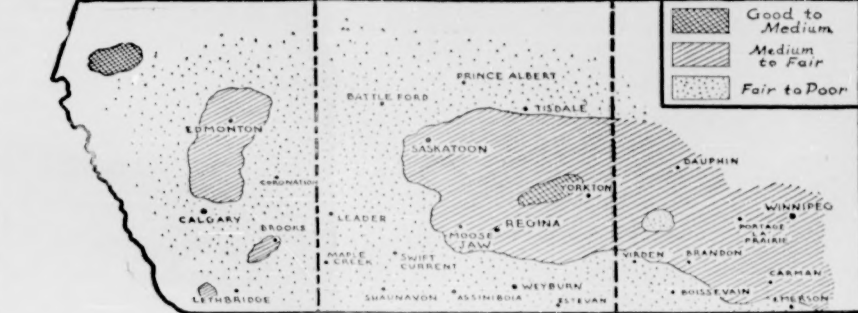

The last day of the season hit this district today, July 29.

Miss Edna Rose, now visiting Miss Helen MacArthur, this week.

Mr. B. K. Kline and children are visiting at the Shatterson home for a few days.

DISASTROUS DROUGHT PLAYS HAVOC ON THE PRAIRIES
This map, prepared by The Winnipeg Free Press, shows the distribution of drought conditions in the three Prairie Provinces, showing how greatly the scorching heat of the past few weeks has affected the crops. Early in July the crop showed considerable promise, but by the third week of the month severe drought conditions prevailed over two-thirds of the grain growing sections. All grain crops have been forced into early maturity, which forecasts an early harvest with short-strawed crops, which in turn indicates a serious shortage of feed.

HEALTH
A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND THE CANADIAN INSURANCE COMPANIES

PAIN OVER THE HEART
A man who may have faced death under fire without the slightest quaver, or who will easily put his skill against all competitors in the ruthless field of high finance, will often "blow up" with the slightest pain over his heart.

Many a strong man has presumed that this has meant the end and has promptly gone to pieces mentally. He pines, figuratively speaking, to this and that prominent citizen who has without warning culminated at his desk in his car, and presumes he will be next.

But is he right in taking such a pessimistic viewpoint? Is there not another side to this subject?

Very few of us get very far along the pathway of life without some pains around the heart. This may be due to the heart at all. Frequently it is not a disturbance due to gas in the stomach sometimes it is due to infection or infection in the chest. In people understanding severe mental strain, particularly if they are of the nervous type, coronary precordial pain is often noted.

Of course it may be of considerable significance. It may indicate a serious condition, particularly in the busy man over fifty. In such case it may necessitate a complete change in one's activities and habits. If serious consequences are to be avoided.

But before getting panicky one should make every effort to find out exactly what is wrong. Do not suppose it is this or that, but go and have a thorough physical examination by a competent physician. Let the judgment, based on many such cases, guide you in your decision. Let him be your guide.

However, if he says "none up" do as he says. Do not "send your own" to "cocktails" and "only miles of golf." It is up to you to do your part. While you may wish to him do the worrying, remember it is your head.

There are three things to keep in mind. One is that the pain may be nothing more than a nervous condition, supposing that it is from the fact that getting panicky is not going to help. Do not suppose it is this or that, but go and have a thorough physical examination by a competent physician. Let the judgment, based on many such cases, guide you in your decision. Let him be your guide.

Follow the doctor's instructions faithfully, he may actually be a lot more useful to you than this warning signal not been given.

Questions concerning health, addressed to the Canadian Medical Association, 104 College St., Toronto, will be answered personally by Dr. GORDONDALE.

GORDONDALE
CROPS DOING FINE
GORDONDALE, July 27.—The crops at present are very uniform. The main portion headed out. Some of the earliest have been headed out a month and the all-day rain on Saturday had been very beneficial, forcing the later ones along to heads and bolls and filling the earlier ones full. On an average the present crop shows more promise than any previous ones.

STORE DOING GOOD BUSINESS
The local store is doing a very good business. There is no doubt. No one is going out and getting for supplies and one and all remark what a business not having to travel such considerable distances to do this.

A small amount of seed work is being done on one of the side roads, but no matter how small every little helps. Who knows, it will be the seed that will grow in the first-class highway out of our town yet.

A couple of men, while in bed at 10:30 a.m., heard a pot-pot-pot and wondered who was trying to wake them up at that time. They got up with an outburst, but after wondering next morning when the pot-pot-pot had been in the house and informed as he came in on a motorcycle, and when asked about the pot-pot-pot, he said it was from the river. Remark: it was a continuous middle-b.

Mr. and Mrs. Ralph Gagnier of Edmonton, daughter and son-in-law, Mr. and Mrs. Ned Johnson, are visiting here at present and expect to leave for their home on Thursday.

COMMUNITY HALL GIVEN BATTLESHIP CHRISTENING

When the cornerstone of the Mount Star-North-Alaskan Community Hall was laid, we understood that there was quite a ceremony, it was all the same as christening a battleship, bottle and all. There is quite a lot of controversy regarding the afrosaid bottle. When it was broken over the stone it emitted a colorless liquid, with about the same smell as water. Now the question is, "What happened to the original contents, or in whose keeping was this bottle prior to the ceremony?"

The hall is now well under construction, and most of the boys are doing yeoman service towards its erection; however, a little more help would work wonders, as the committee are anxious to get it completed before harvesting starts, as then everybody will be busy and it might be sometime before the building could be completed.

This hall is bound to become the centre of the social life of the community, and once you put it into use you will wonder how you ever did without it. So get busy, boys, and do your bit.

We believe that a short piece of road leading to the hall is in need of fixing, and unless this is put into shape it will work a hardship on those going to and from the hall.

This road would also serve several families in that part of the district, so that it is up to those who are responsible for the fixing of this road to get busy.

KIDDIES HAVE BIG DAY AT SUNDAY SCHOOL PICNIC

Last Wednesday the United Church held their annual Sunday school picnic at Pinna's Point, Bear Lake, and it was a big day for the kiddies. There was boating, bathing and sports of all kinds. Everybody brought a basket, and the results were needed, and very few got any of the lunch they brought themselves, but no doubt more than they would have their own.

The winners of the races are as follows:

Hunting Races—Under 6, 1st. Walter Warren, 2nd. Marion Boyd, Ages 6 to 10, 1st. Shirley McMillan, 2nd. Carl Goodwin, Ages 9 to 12, 1st. Eileen Sumner, 2nd. Margaret McMillan, Ages 12 to 15, 1st. Joan Willie, 2nd. Erna Warden.

Poast Races—Ages 9 to 12, 1st. Eileen Sumner, 2nd. Pearl Hart, Ages 12 to 15, 1st. Iris Walker, 2nd. Jean Willie, Ages 15 to 17, 1st. Ruth Cookley, 2nd. Evelyn Willis.

Sack Races—Ages 6 to 9, 1st. Shirley McMillan, 2nd. Anthea Knus, Ages 9 to 12, 1st. Betty Carter, 2nd. Margaret McMillan.

Three-Legged Races—Ages 9 to 9, Donny McNaughton and Walter Warren, Ages 9 to 12, Jean Warren and Pearl Hart, Ages 12 to 15, 1st. John Johnson and Iris Walker, Ages 15 to 17, Viva Warren and Evelyn Willis.

Blindfold Races—Ages 9 to 12, 1st. Betty Carter, 2nd. Eileen Sumner, Ages 12 to 15, 1st. Erna Warden, 2nd. Jean Willie, Ages 15 to 17, 1st. Ruth Cookley, 2nd. Evelyn Willis.

Ladies' Race—1st. Willie Warren, 2nd. Mrs. Boyd, 3rd. Mrs. Sumner.

Married Ladies' Race—1st. Mrs. Moore, 2nd. Mrs. Boyd, 3rd. Mrs. Sumner.

Men's Race—1st. Rev. Mr. Delve, 2nd. Mr. J. Moen.

THEATRE BEING RENOVATED AND IMPROVEMENTS MADE

There will be no show at the Grand this week, as the management have gone on a trip to Calgary to make arrangements for programs for the coming fall and winter. They will contract for a good line of pictures, names of which will be given later.

In the meantime the theatre will be renovated and more and better seats will be installed, together with other improvements.

ALBERTA WHEAT POOL

Elevator Department
Calgary, Alberta

Mr. J. B. Yule, Editor

July 30, 1936

The Northern Tribune,
Grande Prairie, Alta.

Dear Mr. Yule:

Permit me to congratulate you on the very excellent special edition turned out by The Northern Tribune, copy of which has just been received.

Both typographically and from the standpoint of material contained therein, this special edition is a very creditable production. In fact I feel rather proud that one of Alberta's weekly newspapers is capable of doing such efficient and effective work.

Having been in the newspaper business for many years myself I have some understanding of the organization, labor and research required to produce such an edition. I may have a keener appreciation of what you have accomplished than a layman would have, but every recipient must be impressed with the job. In particular I like very much the introduction of colour which made for a brighter publication.

Yours truly,

LEONARD D. NESBITT

Superintendent Publicity Department.

HIGH PRAIRIE

LEG BROKEN BY PONY'S KICK
High Prairie, Aug. 5.—While attempting to saddle his pony, Fred Nopier was kicked by the frightened animal and sustained a broken leg.

Sam Beaudin has the contract for making hay on the Van Der Mark land.

HAPPILY SURPRISED

Mrs. Simon Stroeder was delighted with a surprise visit from her father, mother, and twenty-year-old sister, who reside in Saskatchewan. They came by car as far as the Gilwood road.

RETURN FROM CARAVAN CAMP

John Leeming, Leda Randall, and Ruth Harris returned on Saturday's train from two weeks' stay at the Anishnabek Caravan Camp at Griffin Creek, where they report a delightful time. Evelyn Postage remained at Berwyn, to visit friends. While in McLeannan the girls visited the hospital to see Donald Lehma, who was seriously injured by a horse some time ago. Donald hopes to be home in a week if all goes well.

RAILWAY TRIP TO BIG PRAIRIE

Ralph Martin, accompanied by a berry-picking trip to Big Prairie with 18 gallons of Saskatoon.

BEAUTIFUL CROP AT BIG PRAIRIE

Barley cutting is now general in Big Prairie and the wheat is almost ripe. A beautiful crop is almost matured. In High Prairie district the crops are still quite green and will not be ready to harvest for several weeks. Hay has been mowed or less of a nightmar.

It is hoped that the grain will be well mixed with the grain to be efficient.

High Prairie Field Day Instructive And Delightful

(Continued from Page One)

The farmers were much impressed by the address given by Dr. Neatby. It being right to the point and dealing with the information that farmers of this district are in need of.

Due to our land and climate, the quality of wheat grown here is low—we cannot produce high protein wheat such as is grown in the south country—and so it is advisable to look to other grains in which we may excel.

Maitland Harley, Mr. Albright leads the early fall for the North, seed flax, and soft wheat may prove a solution. It is hoped that plant breeding may produce eventually a better quality wheat for the northern area.

Dr. Neatby, discussed—stating that in wheat, covered smut in barley, loose and covered smut in oats, and instead of the usual treatment by formalin, which impairs germination, the new dust treatment was advised. These dusts stimulate growth and help avoid waste from wireworms or weevils. Dr. Neatby cautions that the Cerean must be well mixed with the grain to be efficient.

This most interesting address was followed by a short address by Mr. Sackville, head of the Animal Husbandry Department at the University of Alberta.

Delightfully human, good natured, and always practical, Dr. Sackville is well known to his former audience at once.

Of these million bush produced in Canada, Dr. J. F. Sackville, head of the Animal Husbandry Department at the University of Alberta.

NEWS FROM ASPEN GLEN AUTO CAMP

ASPEN GLEN AUTO CAMP, Aug. 5.—Two autos of widely separated homes, battling with terrible mud, ceased not the struggle till they got to the Aspen Glen cabin—only arriving at 1:30 a.m. and the other at 6:30 a.m.

Those camping here ever night must discern why any auto would do this. The natural beauty, quietude and cheerfulness of the place, with the cheerful service given is appealing—almost like getting home to the travelling.

Mr. and Mrs. Sam Heutheuer were returning from camp meeting at Riverton to their home at Beiseker were Alvin and Jacob Treibwasser, accompanied by Mrs. E. J. Miller.

D. R. M. Wensell, Tupper, H.C., called in passing.

H. F. Coburn and family stopped a minute on their way home to Nanton.

Anne and Stanley, together with Geo. Donaldson, Grande Prairie, were open-air campers on their return home.

Messrs. W. B. Milne and A. Galt, Edmonton, occupied a cabin on their way westward.

P. H. Wilson, barrister, seeking a location, and Pat Horn, R.R., going home from Alberta College for a holiday, shared with other neighbors the available riding space in J. W. Dickinson's auto, who was returning home to Edmonton.

Mr. and Mrs. Neilson of Wembley passed a moment in passing westward.

On a motorcade with alder, occupied by a youngster, and bound for Enilda was John Camp of Nanton.

While visiting at Fraser, C. W. Mayers, wife and two daughters drove up to Aspen Glen for the exchange of greetings.

Louie Roy, with E. W. Frazier of Grimsby and Mr. Frazier's father, of Inland, called on their way westward.

A. A. Banks and family, of Dixonville, with Johnnie Gibbons of Clear Hills, were cabin campers on their way home, as also were J. F. Erickson and wife of Grimsby, who plan to return here shortly for a vacation and berry-picking.

Westbound, Stanley Stephen, Edmonton, with Johnnie Gibbons of Clear Hills, were cabin campers on their way home, as also were J. F. Erickson and wife of Grimsby, who plan to return here shortly for a vacation and berry-picking.

BEAVER LODGE

BEAVER LODGE, Aug. 4.—Mrs. Hammett, Mrs. Dunn, Mrs. Leonard and Mrs. D. C. Hume attended the W. I. conference in Grande Prairie.

Mrs. F. Walker's parents, Mr. and Mrs. Waite from High Prairie, are visiting with her for a few weeks.

Mr. and Mrs. Jim Allen returned on Sunday from a motor trip to Washington state.

The crops around here look good, and it is to be hoped the frost will stay off for a few weeks.

CAMPING AT THE RIVER
The Junior C. G. I. T. and Golden Key's Girls are camping together this year at the Beaver Lodge River. The camp is under the direction of Mrs. E. A. Shields, with Mr. Shields assisting. The leaders are Miss Gwendolyn Carrell and Miss Margaret McDonald. There are twenty-four girls attending.

On Sunday afternoon, August 8, at 1:30 p.m., the camp is sponsoring an open-air service, with Rev. J. E. Ball of Hythe as the guest speaker.

BENTON UNITED CHURCH
Benton, Aug. 5.—The church is sponsoring an open-air service at the Junior C. G. I. T. and Golden Key's Girls are camping together this year at the Beaver Lodge River. The camp is under the direction of Mrs. E. A. Shields, with Mr. Shields assisting. The leaders are Miss Gwendolyn Carrell and Miss Margaret McDonald. There are twenty-four girls attending.

On Sunday afternoon, August 8, at 1:30 p.m., the camp is sponsoring an open-air service, with Rev. J. E. Ball of Hythe as the guest speaker.

HALCOURT NEWS
TO HOLD ANNIVERSARY SERVICE
The Halcourt United Church is sponsoring an anniversary service on Sunday, August 9, at the church, at 7:30 p.m. Rev. J. E. Ball of Hythe will be the guest speaker. Coffee and tea will be served at the lunch hour after the service.

VALHALLA NEWS
VALHALLA, Aug. 3.—Quite a few of the Valhallans left for a picnic at Fish Lake Sunday and spent two days camping out, and say they enjoyed it immensely.

Victor, Gladys, Mrs. F. A. Olson and Hennie Westad left on Monday for a two days stay at Sasquon Island to pick berries.

Thelma Horsler is visiting at M. O. Platen's at the present time.

Christ Branten has finished the barn at Harsen's and has gone to Hythe to put on a log building there.

Robert Weir is in the Grande Prairie Municipal Hospital suffering with sore eyes. We hope he will be well and out again soon.

The Molds team are improving every day, as they seem to win whenever they play. Keep it up, boys.

SEEN AND HEARD
Sander, Ditch is hard on springs on the west road.

Quite a few of the Mollitans are feeding on Saturday night. 7:30 p.m. Victor saying the ladies were fine, no back seat drivers to contend with, is that right, Vies?

Andrew saying, "This is grand! But will it last forever? I have my doubts."

Arvade with a stiff neck. Who was behind you, Arvade?

Reimer and Arvade in a hurry to leave the hall diamond on Sunday, heading for—we wonder where, Herbert halter breaking a cow "where bound?"

Elsie feeding the boys, but not for long. Arvade leaving a good-bye kiss with the hostmaster for Elsie then she leaves.

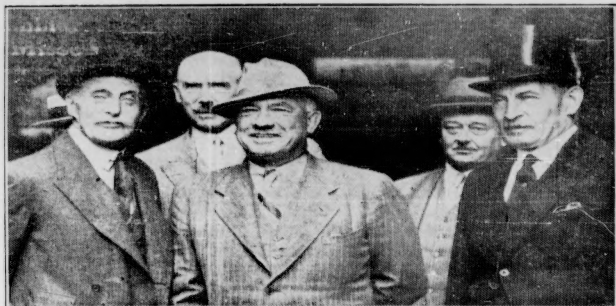

One of the revisions of the Meat and Canned Foods Act of Canada is that no inedible material, glass, ground talcum or other fat, meat or meat product shall be permitted into the Dominion unless the name of the manufacturer or first dealer, is plainly marked on the barrels, together with the words "Inedible. Unfit for Food."

CANADIAN WAR VETERANS REACH LONDON EN ROUTE TO VIMY

When Brigadier-General Alex Ross (centre) Dominion president of the Canadian Legion, arrived in London, en route to Vimy, he was greeted by Sir Ian Hamilton (left) and General Sir Archibald Horne (right). General Ross and some 5,000 Canadian war veterans were at Vimy Ridge when King Edward unveiled the beautiful war memorial on July 26.

MEN'S AND WOMEN'S SPRINT EVENTS PROVIDE THRILLS

In almost frantic effort to make the Canadian Olympic team, which sailed for Berlin the middle of this month to participate in the 1936 Olympic Games, these sprinters hurt themselves over the finishing line. At the top Howie MacPhee of Vancouver wins the 100-meter final in great style as Bruce Humber of Victoria and Lee Fox of Vancouver fight it out for the second and third positions. Below, Hilda Cameron of Toronto manages to finish first in the 100-meter women's final dash as Aileen Meagher of Halifax easily captures second position.

KING AMAZED AT SIZE AND EFFICIENCY OF R.A.F.

When King Edward flew to several Royal Air Force stations to review the various defense corps, he frequently expressed amazement at the size of the planes and the efficiency of the various units. In the above picture the King is passing along a line of giant bombing planes at Midsall, Suffolk, which completely dwarf the royal party and the members of the various corps.

TWO DIE AS BROKEN RAIL WRECKS FREIGHT TRAIN

When this fast Missouri-Pacific freight train was wrecked near Myrtle, Arkansas, after being derailed when it struck a broken rail, two men were killed and several injured. Eleven cars rolled over a 200-foot bluff.

THAMES-SIDE MEMORIAL TO KING GEORGE

For some months, unknown to the thousands passing along the Thames Embankment, workmen have been busy behind a wooden screen under the Water Gate Arch, erecting a memorial to the late King George V. The monument, designed by Sir Edwin Cooper, was commissioned by the Port of London Authority. It is to commemorate the name "King's Reach" which was given to the stretch of the Thames between London and Westminster bridges on the occasion of King George's silver jubilee. Lady Ritchie unveiled the memorial, and in the picture she is seen standing with Lord Ritchie on the deck of a launch after the unveiling ceremony.

FRENCH MEMORIAL TO KING ALBERT

A memorial to the late King Albert of the Belgians has been erected at Saint Quentin and was unveiled by M. Daladier, French Minister of National Defense. It takes the form of a statue of the late King in uniform, standing bareheaded and looking into the distance. This picture shows school children laying wreaths at the foot of the monument during the inauguration ceremony.

BRITISH TOMMIES SEARCH ARABS

Members of the Bedfordshire Highlanders, sent to Palestine to quell the unrest between Jews and Arabs, conducted an intensive campaign in search of hidden arms following several ambushes in which Jews and British soldiers were killed. Above picture shows some Arabs being searched by British Tommies.

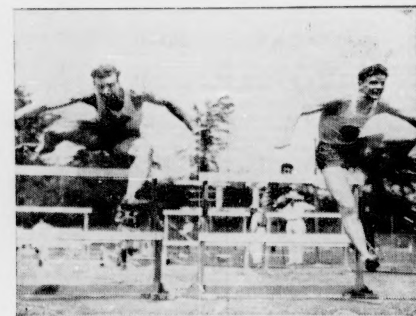

SOUND REVEILLE AT VIMY

Among the thousands of Canadians who sailed for Vimy to attend the unveiling of the Canadian War Memorial by the King on July 26 was a group of seven buglers. On the morning of the unveiling these buglers, in charge of Q.M.S. A. Day, M.M. (above), of Ottawa, sounded the Last Post and Reveille over Vimy Ridge, where so many Canadians were killed during the World War.

REBEL FORCES ATTACK MADRID

Further developments in the bloody revolution in Spain came when forces of the northern provinces of Catalonia threw their support to the government and turned on the rebel forces. Fierce fighting still raged at that time in Madrid, Barcelona and San Sebastian. General Emilio Mola, head, commander of the northern army of the Spanish rebels, was mentioned as a leading candidate for the premiership of Spain should the revolt be successful.

THE 110-METRE HURDLES FINAL

Larry O'Connor of Toronto, leading Jim Worrall, also of Toronto, over the last hurdle in the 110-meter hurdles final at the Olympic trials in Montreal. In winning this event O'Connor equaled the Canadian record set by Earl Thomson at Winnipeg in 1929.

IT SAYS GRAIN PRICES ARE RISING

—Bishop in the St. Louis Star-Times

At the 19th Hole

The Dunlop Handicap Tournament was completed on Sunday, with W. Dick ending the lowest score for the eighteen holes, a 43 and 44, minus 6 handicap, making an 87 net. Ed Culver was runner-up with 39 and 44-83, playing from scratch. Geo. Vast and Bill Ross each had 85.

Mrs. C. C. Fleming made a record for the course while playing with Mrs. E. Culver and Mrs. Christie on Wednesday afternoon, turning in a 52 after a 7 on hole one. Congratulations.

The mixed foursome tournament is now down to the final in the lower bracket, with Mrs. Andrews and Ed Culver winning from Miss Enid Watson and B. L. Hayne after a hard battle. Those in the top half of the fours are Miss L. Neil and J. M. Donaldson to meet Mrs. A. Wishart and Wm. Hall.

In a four-ball match between Francis Donald, Gordon Orr, Bob Waddell and Wm. Dick a card was turned in that had Mrs. Stevenson guessing. It was turned in as a 37. F. Donald, but after standing a 7 on the card he thought there must be some mistake. There was, and it appears a 5 was not tallied on the card, making it a 42. However, Francis can rest assured that he will be in the championship (flight having two 42s to his credit).

The fairways are cutting badly on several holes, and Mrs. Stevenson says she will have everything in tip-top shape before the tournament commences.

Jim Evans is sure consistent in his golf, making three cards of 45 in a row while playing with McMillan, Hutchcraft and Duncan.

C. C. Fleming, while playing with Jack Sissons, had the thrill of his life when he made his last putt on nine, making his first card under the half century mark, a 40, one stroke better than when you get in the forty class.

This beautiful trophy was donated in 1933 by Bell-Fleming Hardware Company, Limited, for the Open Championship Tournament of the Richmond Hill Golf and Country Club. In 1933 and 1934 it was won by Geo. A. Duncan and in 1935 by Ed Culver, the present holder.

Golfers To Battle..

(Continued from Page One)

Seixanth will be well to the fore throughout the day.

The tournament for the men will start sharp at 10 o'clock. The players will be sent off from the first tee at intervals of probably five minutes. As soon as the first round of men have got started, the ladies will tee off. The games for the men will be eighteen holes except in the finals, which will be thirty-six holes. The ladies will play nine holes until the finals, which will be eighteen holes. It is hoped to have the draws made on Saturday night, but it is possible.

Jim Evans is sure consistent in his golf, making three cards of 45 in a row while playing with McMillan, Hutchcraft and Duncan.

B.B. Tournament At Pouce Coupe Wed., August 12

An open baseball tournament will be held at Pouce Coupe on Wednesday, August 12, commencing at 10 a.m. open to all comers.

Sixty dollars is being offered for first prize and \$25 for second prize.

Entries must be in the hands of the secretary, Oliver Callahan, Pouce Coupe, not later than 8 p.m. Monday, August 10.

A dance will be held at night.

Govt. Sales Tax Inspectors Here Over Week-End

J. R. Benson and J. D. Yetter, inspectors of the Sales Tax Branch of the provincial government, will be in Grande Prairie over the week-end and will be glad to furnish any information in connection with the two per cent sales tax.

The inspectors will be at the Grande Prairie Hotel.

From Grande Prairie they will visit other points in the district.

WM. GAULT, HYTHE DIST. DIED AT COAST

Joe Gault received a wire on Thursday which contained the sad news that his father, William Gault, of the city of Hythe, in the district, had died at Vancouver.

Mr. and Mrs. Gault and younger members of the family left last night to reside at the coast.

VISITORS CLAIM OUR ROADS WAY BEHIND

"We're just a couple of Californians up here, but it seems to us that the roads in this country are way behind in building good roads into the back-country than those in California."

Mr. and Mrs. Gault and younger members of the family left last night to reside at the coast.

BANFF INDIAN DAYS AND MONTH'S HOLIDAY ENJOYED REPORTS OLIVE WISART

Thoroughly delighted with a month's vacation spent largely at Banff, and having had a very enjoyable time in the province, Miss Olive Wisart arrived home Tuesday.

She was a guest of Mr. and Mrs. Jim Brewster for a fortnight at Banff and indulged in a good deal of horseback riding over the many splendid scenic trails of Banff National Park.

Among the more famous riding trails, she particularly mentioned the Spray River trails and the Sundance Canyon.

Oliver arrived just in time to see part of the Indian Days staged annually on the Banff Springs Hotel grounds and at the specially erected Indian village.

The costumes were gorgeous and made up in wonderful colors, and the dancing was very attractive.

After the concert broadcast from the hotel grounds took place, a pow-wow was held in which Indian braves danced with the white girls and pale faces dance with the squaws.

Oliver informed the Tribune that she negotiated quite well the tricky steps of the chicken dance to the beats of the drum and the beating of the drums.

On the return home she was a guest of Mrs. Lou Irving in Edmonton for a few days and also visited with Mr. and Mrs. Robbie Robinson at Lacombe.

Shirley Shields, little daughter of Mr. and Mrs. J. Shields, returned home last week after spending a two weeks' visit with her aunt, Mrs. J. K. Shields, at Pouce Coupe.

Mrs. W. C. Pratt entertained for a few friends at the ten hour on Tuesday afternoon.

Mrs. F. Hickman and son Donnie returned with Bert Haggerty last week from a vacation in Calgary and his many interests. Oliver thoroughly enjoyed her first visit in the mountains.

LARGE CROWD AT FIREMEN'S PICNIC; BEAR LAKE SUNDAY

For sheer pleasure of an outing and friendly get-together of district people the firemen's picnic left nothing to be desired for fullest enjoyment by those fortunate who were present at this interesting annual event, held last Sunday on the inviting grounds kindly lent by Mr. and Mrs. Howard Jurney at Bear Lake.

From early afternoon, when large numbers of cars arrived, games of all kinds in the large open circle along the lake shore. The day was ideal, the lake calm surface reflecting the sky, and the surrounding pine forest, the picnic grounds surrounded by tall heavily foliaged trees.

In thanking the firemen of Grande Prairie for their invitation to this picnic, Mayor Tooley, speaking through the microphone, and the amplifier system arranged by Joe Putters, voiced the feelings of everyone present.

Walter Nelson and Lloyd Miller each captained a softball team of young boys for the first time of the year. It was a close tussle throughout the seven innings and the boys showed splendid spirit.

Throughout the day could be heard the sounds of the firemen's musical selections played by Joe Putters on a phonograph fitted with an amplifier. Popular selections, Harry Lauder and happy melodies were played, and most popular of all were the announcements broadcast by Joe Tooley.

Respected Citizen Wembley District Passes Away

A very sad death occurred Monday night at 9:30 o'clock, in the passing of Mrs. Alma Abrahamson, wife of Alfred Abrahamson, of Wembley. In the Grande Prairie Municipal Hospital, she had been suffering from heart disease for a considerable time and was at the hospital for the last three weeks of her life. She was 60 years old.

Mrs. Alma Abrahamson was born in Jenkins County, South Dakota, one of two daughters of Mr. and Mrs. Mat Johnson, who later moved to Wembley. Mrs. Alma Abrahamson migrated to Canada in 1907, and resided at Buchanan, Saskatchewan. Twenty-one years later they moved into the Peace River country and took over a farm nine miles northeast of Wembley. Friends of the district who shared her acquaintance mourn the passing of a very good neighbor.

J. B. Oliver was in charge of funeral arrangements, the body being taken to

Wembley for interment. The funeral service was held this Thursday afternoon, at 2 o'clock, in the United Church, Rev. Wm. J. Huston officiating.

The late Mrs. Abrahamson leaves to mourn her loss her husband, one sister, Mrs. P. Brown of Minnipeg, and one brother, Joseph Johnson, of Jenkins County, South Dakota.

The pier, raft and diving board which have been of such good service to swimmers and boating patrons at Bear Lake this summer are certainly a welcome addition to the facilities at this picnic point.

As a rather large expense was entailed by Jack Mantle and Jack Crommy in building these convenient ones, any one wishing to help out with this expense is asked to make their contribution to either Jack Mantle or Jack Crommy.

PAHRS, Aug. 6.—France today lined up seven European nations—including Britain, Germany, Russia and Poland—in support of her proposal for a non-intervention policy in Spain, which was called Wednesday night in an effort to ensure the continued peace of the continent. Other nations approving "in principle" were the Netherlands and Czechoslovakia. Both the Soviet and Italy attached reservations to their policy.

MADRID, Aug. 6.—Loyalist troops three lines of steel into defensive positions today for a "final" crushing blow to Franco's forces. The government sent reinforcements into the Guadarrama Mountain passes to halt the rebel march to Madrid. The city of Cadiz, in southwestern Spain, was reported today to have fallen before a bitter attack by government forces. Franco's shock divisional troops. No quarter was shown by either side. The rebels offered stubborn resistance.

ST. LOUIS, Aug. 6.—Eight persons, including six passengers, the pilot and co-pilot, were killed Wednesday night when a Chicago & Southern Airlines airplane crashed on a farm near the outskirts of St. Louis.

EDMONTON, Aug. 6.—Initial \$250,000 issue of provincial government scrip is experimental and no further issue will be made until the government determines how the first crop fares. It was indicated by Premier Abernethy today.

EDMONTON LIVE STOCK

EDMONTON, Aug. 6.—Hogs steady at \$8.75 for trucked-in lots.

Grande Prairie Co-op. Livestock Marketing Association Ltd.
